BETON PRO

Product description:

Digital concrete strength tester

Features

- Measures the strength of concrete (concrete and reinforced concrete) without damaging the substrate, using the non-destructive shock pulse method.
- Direct data readout on LCD display (measurement result/impact direction/material selected/coefficient of coincidence/measuring unit/battery charge level).
- Selection of material type by simple menu selection: basic concrete, heavy concrete, lightweight concrete, brick.
- Selection of measurement units : kg/cm2, n/mm2, PSI, MPa.
- Impact direction adjustable in 5 directions.
- Adjustable coefficient of coincidence (for correcting instrument measurements).
- Menu in 6 languages: French, English, Russian, German, Spanish, Italian.
- Charge level indicator.

Delivered with

Storage case, storage holster, grinding stone, batteries, strength reference sample (11.5 MPa ±1.5 MPa) and user manual

Product features:

New :	**Yes**

Accuracy :	**±7%**
Mémoire :	**500 values**
Plage de mesure :	**3,5-99,9 MPa**
Power Supply :	**2 x 1,5 V LR06/AA batteries**
Operating Temperature :	**-5 °C… +40 °C**
Dimensions :	**205x 175 x 60 mm**
Weight :	**600 g**
Ref. :	**C310024**
EAN Code :	**4657804920933**
