

WALL MOUNT PRO - Laser level wall mount

Product description:

WALL MOUNT PRO - Laser level wall mount

Features

Universal mount for mounting a laser level to a wall, to a profile such as stud or track.
Mounting by magnet or screw using the integrated slot on the rear of the mount.
The Microlift system allows smooth adjustment of the mount using a micrometer screw for accurate work.
Integrated vial verifies the position of the laser level in relation to the vertical plane.
Structure allows for the projection of the upper and lower plumb points.
