

BETON PRO

Product description:

Digital concrete strength tester

Features

- Measures the strength of concrete (concrete and reinforced concrete) without damaging the substrate, using the non-destructive shock pulse method.
- Direct data readout on LCD display (measurement result/impact direction/material selected/coefficient of coincidence/measuring unit/battery charge level).
- Selection of material type by simple menu selection: basic concrete, heavy concrete, lightweight concrete, brick.
- Selection of measurement units : kg/cm², n/mm², PSI, MPa.
- Impact direction adjustable in 5 directions.
- Adjustable coefficient of coincidence (for correcting instrument measurements).
- Menu in 6 languages: French, English, Russian, German, Spanish, Italian.
- Charge level indicator.

Delivered with

Storage case, storage holster, grinding stone, batteries, strength reference sample (11.5 MPa \pm 1.5 MPa) and user manual

Product features:

New :

Yes

Accuracy Feature :	±7%
Mémoire :	500 values
Plage de mesure :	3,5-99,9 MPa
Power Supply Feature :	2 x 1,5 V LR06/AA batteries
Operating Temperature Feature :	-5 °C... +40 °C
Dimensions Feature :	205x 175 x 60 mm
Weight Feature :	600 g
Ref. Feature :	C310024
EAN Code Feature :	4657804920933
